In brief: Many funding agencies require data management plans (DMP) as part of grant proposals. The DMPTool helps institutions & researchers to create high-quality DMPs that meet funder requirements, including those from:

DMPTool Benefits for Researchers
- Help you meet the funding requirements of your next grant with current data management planning information
- Put you in touch with expert help at your institution and help you comply with your institutional requirements
- Improve the quality of your research and increase its impact through better data management practices
- Collaborative plan creation and co-ownership with colleagues
- Institution-specific templates and help

What is the DMPTool?
Free step-by-step web application for creating data management plans for funders

More DMPTool Features
