Progressive growth in responsibility with time in position/rank and added duties

Current responsibilities:

- Advises Library Dean and Library Administrative Council regarding all aspects of scholarly communication, including open access, open data, open educational resources, copyright, journal metrics, author's rights, ORCID, and Scholars Junction, the MSU institutional repository
- Consults with faculty and students regarding scholarly communication needs
- Plans and implements internal and external training on all aspect of scholarly communication
- Serves as the Library's copyright specialist
- Advises Student Association on Open Educational Resources
- Oversees the development of campus wide programming about scholarly communication issues and developments
- Provides outreach to faculty, researchers, and students to increase awareness of scholarly communication initiatives and programming
- Manages Open Journal Systems, the MSU journal publishing platform
- Assists in managing Scholars Junction, the MSU institutional repository
- Chairs the Scholarly Communication Committee

Previous responsibilities (no longer performed in current position):

- Advise Library Dean and Administrative Council regarding electronic resources needs and budget projections
- Plan, set goals, and implement work flow for electronic resources, including licensing, activation, and maintenance in collaboration with relevant departments
- Manage a department of one (previously two) tenure-track faculty librarian and three FTE library associates

- Assess and update current procedures pertaining to the acquisition, processing, and access of electronic resources
- Maintain database of electronic resources using EBSCO management tools
- Manage invoice processing for all electronic resources
- Authenticate and activate electronic resources and verify continuing access
- Collaborate with serials cataloging to verify network links and assist with record maintenance
- Arrange, coordinate, and evaluate electronic resource trials
- Participate in the license review process for electronic resources and consortia packages by conducting license reviews and negotiations, communicating with vendors throughout the licensing process
- Evaluate electronic resource titles to ensure beneficial and fiscally responsible resources are purchased
- Collect, maintain, and analyze usage statistics for all electronic resources
- Evaluate usage data for collection development and institutional reporting
- Lead the electronic resources team in identifying access problems and finding solutions
- Construct RAPID report for Interlibrary Loan linking
- Maintain contact with publishers and vendors
- Create and manage order and serial control records for electronic resources in the SirsiDynix Integrated Library System
- Manage the library's book ordering system, GOBI
- Member of the Collection Management Services Leadership Team and the Library Coordinators Council
- Participate in collection development as a library liaison to four university departments in the College of Engineering
- Contribute to annual university department meetings to provide information on subscriptions and options for the next year
- Administered of Mississippi State University's electronic theses and dissertations database
- Maintained database of electronic resources using Serials Solutions' Access Management System
- Managed the format review process for theses and dissertations including the supervision of 1.25 FTE staff members
- Managed the publication process for all University theses and dissertations
- Taught workshops on University guidelines for thesis and dissertation formatting

Library systems knowledge

- Proficient with EBSCO management tools, including Full Text Finder, EBSCONET, ERM Essentials, Usage Consolidation, ECM Collection Manager, and GOBI
- Experience with SirsiDynix Integrated Library System software, WorkFlows (Serials, Acquisitions, and Cataloging modules)
- Experience with Serials Solutions' AMS and 360 Suite including the Electronic Resources Management System (ERMS)
- Experience with OCLC's service configuration for ILL eResources linking
